FROM THE LIBRARIAN'S DESK . . .

As we move into Autumn, the Library enters a new phase in our computerization project. All patrons are now being asked to re-register for new library cards which will enable them to use the new system. The re-registration process takes just a few minutes; the registration desk is set up next to the circulation desk.

Within the next several weeks, a new circulation desk will be installed; we hope to keep any disruption to a minimum, and ask for your patience during this time of change.

The benefits of the new system are many. One of the most important is that you will be able to check the location and status (in the library or checked out) of books and materials immediately, not only in our own library, but also in the Skokie, Deerfield and Waukegan libraries.

Because the four libraries have different subject strengths, you will have a greater variety of materials available to you.

The Library staff has spent a great deal of time in preparation for this change, and we're confident that the new computer system will provide improved services for you.

Executive Librarian
